

GAP Compliant Contractors List - 14/03/2018

IMPORTANT NOTE: You MUST obtain a copy of the CAV of all contractors you use from the Contractor directly. This list does not replace needing to have a copy of the CAV.

Please note the following when using this list:

- The list is updated weekly. Therefore there may be a delay for recently audited contractors who may not appear on the list. If a contractor you are looking for is not listed, please check directly with the contractor as to whether or not they have a current CAV or send an email to the address below.
- The CAV expiry date must be checked to determine it is current. To be valid the expiry date must fall after the contractor completes any work on the orchard.
- A copy of the CAV should be obtained from the contractor themselves. Zespri does not provide copies of CAVs.
- This list currently only comprises Harvest Contractors. Other Contractors who complete other vine work (e.g. pruning) will be added at a later date.
- This list indicates successful completion of a GAP/GRASP audit only.
- GRASP assessments where relevant are completed at the same time as the GAP audit and hence the CAV covers both GAP and GRASP.
- It is the Contractors responsibility to ensure they are meeting all of their legal obligations including health and safety and labour compliance.
- Sub-contractors are required to hold their own CAV. You must check with your contractors if they are using any sub-contractors to complete work on your orchard(s) and ensure you check the CAV for the sub-contractor(s) also.

If you cannot find the contractor(s) you are looking for on this list or you require further information please send a detailed email to compliance.mail@zespri.com

H = Harvest Contractor S = Spray Contractor F = Fertiliser Contractor

GAP Number	Contractor Name	Contractor Type	GAP Expiry Date
